

# **CORPORATE RISK SYSTEMS**

## **SAFETY HEALTH AND ENVIRONMENT**

### **Environmental Sustainability Policy**

*Corporate Risk Systems Ltd recognises every individual's and organisation's responsibility to consider its impact on the environment. We strive to conduct our business operations in a sector leading manner that minimises our significant impacts on the environment, and to positively promote environmental improvements.*

*We commit to comply with relevant environmental legislation and regulations, and with other requirements and standards to which we subscribe. Furthermore our environmental management system provides a framework for setting and reviewing environmental objectives and targets, to continually improve our environmental performance.*

*In particular we strive to tackle our significant aspects including promoting energy efficiency, preventing pollution and maximising the impact of our environmental educational and consultancy services. Furthermore we are committed to being a long term employer, Investor In People and ensure we conduct financial affairs in a legal, sustainable and ethical manner.*

*CRS believe actions are more important than words and have a policy to minimise our carbon footprint and offset any GHG created through our operations to support global and local environmental causes.*

*All of our employees, contractors, and others with whom we do business are required to follow the letter and the spirit of our environmental policies, and assist us to achieve our environmental and sustainability objectives.*

*In developing our environmental policies, we have taken account of factors appropriate to the nature, scale and environmental impacts of our activities and services. We strive through our training and consultancy work to minimise the environmental impact of other organisations and promote environmental Working practices.*

*Our procedures are, implemented, maintained, and communicated to all persons working for or on behalf of the company.*
